PROFESSIONAL PROFILE

Senior iOS Developer with **4+ years of experience** building native, high-performance mobile applications in Swift and SwiftUI. Specialized in clean architecture (MVVM, Clean Architecture), modular design, and delivering polished user experiences across industries including banking, transportation, education, and automotive. Experienced in both corporate and freelance environments, working fully remote with cross-functional teams. Passionate about pushing the boundaries of SwiftUI and staying current with the Apple ecosystem.

WORK EXPERIENCE

Senior iOS Developer Oct 2022 — Present
ALTEN Spain — Remote, Madrid

- Responsible for the overall architecture and development of iOS applications for public sector clients.
- Led design, implementation and maintenance of robust, scalable, high-performance mobile solutions.
- Worked with SwiftUI, UIKit, CoreData and MVVM across iOS 14–17.
- Collaborated with cross-functional teams to define technical strategy and sprint planning.

SwiftUI UIKit CoreData MVVM Redmine Scrum

iOS App Developer (Freelance) May 2024 — Nov 2025
Dinoroco Studios S.L. — Remote

- Delivered end-to-end mobile solutions using SwiftUI (iOS 16–17) and Swift 6.
- Built modular, scalable apps from scratch with clean architecture and real-time data handling.
- Integrated Firebase, MapKit, Combine and SwiftData into production apps.
- Coordinated tasks and deliverables via Jira in an Agile environment.

Swift 6 SwiftUI Firebase MapKit Combine SwiftData

iOS Developer — 3D Object Scanning Mar 2024 — Jun 2024
Wimedia — Remote, Madrid

- Built an innovative iOS app leveraging the iPhone TrueDepth camera to scan physical objects.
- Implemented advanced depth-data processing pipelines to generate accurate 3D models.
- Worked with AVFoundation, SceneKit and custom Metal shaders.

TrueDepth SwiftUI AVFoundation SceneKit Xcode

SKILLS

Languages:	Swift, Swift 6, Objective-C	UI Frameworks:	SwiftUI, UIKit
Frameworks:	Firebase, MapKit, CoreData, SwiftData, Combine, Keychain, TrueDepth	Architecture:	MVVM, Clean Architecture, Protocol-Oriented, SOLID, Modularization
Testing:	XCTest, Unit Testing, UI Testing	Tools:	Xcode, Git, Figma, Jira, Redmine, Trello
Methodologies:	Scrum, Agile, CI/CD	Languages (human):	Spanish (native), English (B2 professional)

FEATURED PROJECTS

Expense Tracker · [SwiftUI](#) · [Swift 6](#) · [SwiftData](#) · [MVVM](#)

Personal finance app to track income, expenses and savings with visual charts and category breakdowns.

Rick & Morty App · [SwiftUI](#) · [Swift 6](#) · [SwiftData](#) · [REST API](#)

Character browser consuming the Rick & Morty REST API with protocol-oriented MVVM and local persistence.

MapKit Search & Route · [SwiftUI](#) · [MapKit](#) · [LookAround](#)

Interactive map app with place search, route planning and the native LookAround street-level view.

Task App · [SwiftUI](#) · [Firebase](#) · [Auth](#) · [Firestore](#)

Real-time task management with user authentication and cloud sync.

Animated Paging Indicators & Custom Blur Sheet · [SwiftUI](#) · [Open Source Components](#)

Drop-in SwiftUI components for onboarding flows and native blur bottom sheets.

EDUCATION

Higher National Diploma in Web Application Development

IES Marqués de Comares — Lucena, Córdoba
2020

Vocational Qualification in Microcomputer Systems and Networks

IES Marqués de Comares — Lucena, Córdoba
2018

COURSES & CERTIFICATIONS

Full Stack Mobile Bootcamp

KepCoding — SwiftUI, UIKit, Kotlin, Flutter, React Native, CoreData
2022–2023

Swift 6 and Strict Concurrency in SwiftUI

Advanced Swift 6 features and strict concurrency models

Augmented Reality and VisionOS

Reality Composer, 3D Models, Combine, Spatial Design
